**Real Medicine Stops Obsti-
nate Hang-On Coughs**

No matter how severe, how stubborn or
how long standing your cough is, here's
a way that's sure to stop it or money re-
funded.

A medicine, long the standard of doc-
tors, for us in coughs and colds that
must be stopped is the medicine you
should take. It is called Adamson's Bal-
sam. Act in two ways to end the cough
and does it, too.

First it breaks up the phlegm, soothes
the inflamed membrane and gives the
throat muscles a chance to expel the
phlegm. That stops your racking cough,
sweet, sugary syrups go into the system
through the blood and attack the germs
right at the seat of the trouble and in a
day or two every trace of danger is gone.

Adamson's Balsam contains no dope,
dangerous drugs or chloroform. It's
wonderful for children. It certainly
stops coughs—Easy ones in a dose or two
—Hard ones in a day or two. Two sizes,
35c and 75c.

WHEN BETTER AUTOMOBILES ARE BUILT . . . BUICK WILL BUILD THEM

Everything
that is BUICK for only
\$1195 F. O. B. Factory

You may have thought that you couldn't buy a Buick for as little as
\$1195—that you would have to pay considerably more for Buick
quality.

The truth is that you can have any one of three popular Buick
models at this figure—a Sedan, Coupe or Sport Roadster—all of
them, cars of true Buick quality.

All have smart, low-slung bodies by Fisher in beautiful color har-
monies. All have the famous Buick valve-in-head six-cylinder engine—
vibrationless beyond belief. All have Buick's Lovejoy hydraulic
shock absorbers—providing the ultimate in riding luxury.

Needless to say, all offer greater satisfaction than is obtainable else-
where at such moderate prices.

You have always wanted a Buick—today's Buick surpasses all previous
creations. See it—drive it—and own the car you have long wanted.

SEDANS \$1195 to \$1995 COUPES \$1195 to \$1850
SPORT MODELS \$1195 to \$1525
All prices f. o. b. Flint, Mich., government tax to be added. The G. M. A. C. finance plan, the most desirable, is available.

We are soon to make a move on John Woodman's wood-pile. Volunteer assistance needed. Malcolm Gregg says he'll help. Are there others?

Chas. G. Jenness of Rochester, N. H., after writing his Christmas Sermon sent a check of \$50.00 to the New Hampshire Orphanage, at Franklin, requesting that the children have what they wanted to the extent of the money.
We wonder when they got it and if they had a fight over it. It was kind in Mr. Jenness anyhow. He is a newspaper man and we are wondering where he got the money.

Chas. A. Pillsbury Editor Republican-Journal of Belfast some ten years ago showed a letter with this expression: "I'm not afraid to die but I'd like to stay round with the grandchildren a while longer."

We failed to realize the meaning conveyed in that letter at the time but have since learned. Charles passed over the divide a few months later and Bro. Stearns of Dover attended the funeral. We were unable to get there.

We are getting to whittling in the house. Never expected to come to it. The Weary Club is too far away and the housekeeper doesn't object. No telling what liberties you will take when you become old, tired, lazy and sick.

When knitting becomes a lost art what will the granddaughters do? Maybe they will be content to play cards and let the little ones go with cold feet and hands.

December 1924 was very much colder than the month just passed. According to John Wight's returns the average temperature was 6.20 in 1924 and in 1927 19.15 with a fraction added to both.

Geo. W. Richardson of So. Paris admits he couldn't keep house and do his work without an adding machine. George is the Secretary and Treasurer of the Oxford County P. of H. Mutual Insurance Co. and have some five thousand accounts. He does all the addresses in long-hand writing and it is some work. An addressograph would be just as handy as an adding machine. He feels the cost would be too great and he is probably right.

John Woodman claims to have a treasure in his wood pile. We won't tell what he says it is for fear he might get robbed.

Harry Stinson, Norway's chief of Police, went to Atlanta, Ga., last week. He didn't have to stay. He is back on his job and none the worse for the trip.

Good luck comes with a cat. Especially if it's a well behaved one like the matinee cat that came to us last Saturday. Its folks can have it by proving ownership. No charge for the notice.

You can't learn some folks nothing. Tied to traditions of the past and forgetting the present.

The Sun-Journal, down river, is a great paper. Why continue misleading heading on one? Drop the word "Journal" and call it "The Evening Sun." Forget there ever was an Evening Journal. Its days are past. The illustrious Dingleys have gone and Arthur Staples can't live forever.

Drop "Journal" and call it "Sun."

P. H. Shorey, the publicity writer, is brought to the carpet occasionally and word is broadcast that he is to get through. Recently, February 1st was the day set. He has been on the job since 1925. Got to cut expenses is the cry. The first is some folks who don't know news, feel that Phil is boosting the governor too much and he has got to be snatched so as to keep his department "out of politics." It has never been in "politics" one second since Mr. Shorey has been in charge.

It is true he refers to the governor often. He has to or "the news" he writes would be thrown into the waste basket. It isn't that he is boosting Brewster as an individual, but he is writing "stuff" to be printed and he has got to hit to somebody as impersonal news is not accepted.

You won't find Mr. Shorey booming the governor for the senate, but he must tell the truth about the governor's activities in matters of interest in the State. Just the same as he would Hiram Ricker or Willis Parsons or any other citizen.

Don't get foolish and bounce him, but rather increase his salary and say just keep the news wire hot about the good things of this state and its people including the governor and chairman Fields and the Cooper title water enterprise. It isn't politics, he is advertising Maine.

P. S. We understand Mr. Shorey is to remain six months longer. Let him stay until a better man is found, but he sure is a better man before a change is made.

An all black kitten has come to the house. A playful mouse. It tripped over the woodpile and rat holes, picking out the most favorable, and began watching. Owner can have it by calling, provided the cat remains here.

Shirley Cook has 700 hooks. Some small, some big, some long. He has three horse-loads of feathers, red, green, blue and yellow. Rainbow furs and sombre hues. He ties ten to suit his fancy. Guarantee each the best that's made.
P. S. We have used Cook-tied flies with amazing success for the past two seasons.

Nate Merrill after returning from the hospital: "I've been castor oiled 'dressed' for two days, took twelve ounces of castor oil in coffee. Was weak in running gear when trundled into the operating room. The white robed folks there were strangers and I asked for Dr. Webber. A big fellow came forward and said, 'I'm Dr. Webber.'"

"I told him I'd hold him responsible for what they did to me. I had a fight with ether and everybody around me. I knocked over several and then all was blank. Didn't know anything.
When I came to I was in bed in a strange place and feeling a little sore in spots. I don't know what I said or did only from hearsay. I wasn't sick. For four days I lived on hope and water."

All the lamps are burning in the clock tower. The dead one on the north side was renewed promptly.

John Woodman has rode in a New Ford and likes it. Couldn't be better. It would cross the rats without undue jolting.

The crow had the freedom of the farm the past summer but sticks to his old roosting place and when the crows gathered for flight to the south, he let them go his way. One of our oldest nights he flew from the shed out through a door that was opened for a short time and was lost in the darkness. Calling failed to bring him back that night. Early the next morning he was on his favorite perch, a window sill by the dining room and calling to his breakfast. He is very bright and intelligent and talks in his way to all the family.

Lesson for January 15

JESUS AND SINNERS

LESSON TEXT—Mark 2:1-17.

GOLDEN TEXT—I came not to call the righteous, but sinners to repentance.

PRIMARY TOPIC—Jesus Forgives a Sinner.

JUNIOR TOPIC—Jesus Heals and Forgives.

INTERMEDIATE AND SENIOR TOPIC—Jesus Shows His Sympathy and Power.

YOUNG PEOPLE AND ADULT TOPIC—Jesus' Power to Make Whole.

1. Jesus Preaching the Word (vv. 1, 2).

1. The surging crowd (v. 2). So great was the crowd gathered about the house where Jesus was stopping, that there was no room to receive them. As soon as it was noted about that Jesus was in the house, the multitudes gathered.

2. What Jesus preached unto them (v. 2).

He preached unto them the Word of God. He always preached the Word before He wrought miracles, for to make known the will of God was His supreme mission. Miracles were not an end in themselves, but to authenticate His work. The people came, some to be healed, and some out of curiosity. He gave them that which they needed, regardless of the motive which actuated their coming.

II. Jesus Forgiving Sins (vv. 3-5).

The man brought to Him was suffering from the dread disease of palsy, but his most deadly affliction was that of sin. This miracle was wrought by Jesus in confirmation of His message.

1. Faith coming to Jesus (v. 3).

The actuating impulse of the pained man and the four friends who carried him was faith.

2. Faith overcoming difficulties (v. 4).

Though prevented by the crowd from coming to Jesus, they ascended the outer staircase and let the afflicted man down through the roof.

3. Faith rewarded (v. 5).

No word was uttered either by the paralytic or his bearers. Their action was enough. The paralytic got more than he expected. He desired healing of the body and he got bodily healing, plus forgiveness of sins.

III. Jesus Answering the Scribes (vv. 6-10).

1. Their objections (vv. 6, 7). They asked:

(1) Why does He thus speak? (2) Who can forgive sin?

They were entirely right in their reasoning that only God can forgive sins. Their blunder was in not perceiving Him to be God.

2. Jesus' answer (vv. 8-10).

He knew their inner thoughts and reasonings and manifested unto them His essential deity in that He had power to know their thoughts. He inquired, "Which is easier to say, thy sins be forgiven thee, or to say, arise and take up thy bed and walk? But that ye may know that the Son of man hath power on earth to forgive sins, He saith to the sick of the palsy, I say unto thee, Arise, and take up thy bed, and go thy way into thine house."

He was willing that His power in the invisible realm should be tested by His power in the visible.

IV. Jesus Healing the Paralytic (vv. 11, 12).

1. His healing was by the direct method—speaking the Word (v. 11).

Christ's words are enough. With the command was given the strength to obey. That which Christ commands He gives the strength to perform.

2. The obedience of the man (v. 12).

He immediately arose, took up his bed and went forth before them all. The poor helpless man walked away with his bed upon his shoulder.

3. The people were amazed, and glorified God (v. 12). They said, "We never saw it on this fashion."

V. Jesus Eating With Publicans and Sinners (vv. 13-17).

1. The call of Levi (v. 14). Levi was a tax-gatherer under the Roman government. As Jesus passed by, He commanded Levi to leave his business and follow Him.

2. Jesus dining in Levi's house (v. 15). It seems that Levi, when he found the Savior, invited many of his business associates to eat with him. This gave an opportunity to Jesus to come into touch with these sinners.

3. The perplexed scribes and pharisees (v. 16). They asked, "How is it that He eateth and drinketh with publicans and sinners?"

4. Jesus' reply (v. 17). "They that are whole have no need of the physician. I came not to call the righteous, but sinners to repentance."

Our Future

We never know for what God is preparing us in His schools; for what work on earth, for what work in the hereafter. Our business is to do our work well in the present place, whatever that may be.—Christian Exposition.

Learn Secret of Prayer

Getting Up Nights

Relieved for W. H. Dunham at 86. A Healthy Bladder While Daytime Only.

W. H. Dunham, Brownfield, Me., says: "I have suffered with bladder trouble 35 years, being obliged to get up 4 or 5 times nightly. Keller's Lithiated Buchu has relieved that terrible irritation and desire. What I had found it years ago. Will talk or write to anyone."

Lithiated Buchu acts on the bladder as opium salts do on the bowels. Drives out foreign deposits and restores excessive acidity. This relieves the irritation that causes "getting up nights." The tablets roll 2 or 3 each at all drug stores. Keller Laboratory, Mechanicville, Ohio, or locally at L. V. Ashton's, druggist.

Getting Up Nights

Relieved for W. H. Dunham at 86. A Healthy Bladder While Daytime Only.

W. H. Dunham, Brownfield, Me., says: "I have suffered with bladder trouble 35 years, being obliged to get up 4 or 5 times nightly. Keller's Lithiated Buchu has relieved that terrible irritation and desire. What I had found it years ago. Will talk or write to anyone."

Lithiated Buchu acts on the bladder as opium salts do on the bowels. Drives out foreign deposits and restores excessive acidity. This relieves the irritation that causes "getting up nights." The tablets roll 2 or 3 each at all drug stores. Keller Laboratory, Mechanicville, Ohio, or locally at L. V. Ashton's, druggist.
